This program is being offered by the Attleboro Republican City Committee, which has a long history of local Republican success. Elected Republicans representing Attleboro include two State Representative and a State Senator, the City Mayor, members of the School Committee and majority of the members of the City Council including the President. The AttleboroGOP wants to share their success stories (along with growing pains too), in a true hands-on program. Discover ways to stay positive, cultivate new members and actually make it all work. Learn ideas to solve everyday issues, working with negative people and how to handle conflicts. This program is designed to provide the meat and potatoes many have been asking for. Let's work together to grow the grass root Republican Committees.

Together WE are the GOP Team !

1. This program is only open to Registered Republicans. Sorry no Democrats may attend for any reason – party enrollment will be checked! 2) Republican Candidates running for office in MA are also welcome to attend with Republican members of their committees. While the program is basically for a Town/City Committee, many ideas and samples would also work for a Campaign.
